Objective

BCA graduate with hands-on experience in Java backend development using Spring Boot, Hibernate, REST APIs, and PostgreSQL, seeking a Junior Java Developer role to build scalable applications and grow within a dynamic engineering team.

Experience

Full Stack Java Development Trainee Intern QSpiders, Karol Bagh, New Delhi | June 2025 – March 2026

- Trained in full stack development using Core Java, OOPs, JDBC, Servlet, Hibernate, JSP, and Spring Frameworks alongside front-end technologies including HTML, CSS, and JavaScript.
- Built end-to-end applications integrating UI, business logic, and PostgreSQL database connectivity following MVC architecture.
- Practiced Version Control with Git, debugging tools, and SDLC methodologies to develop maintainable and scalable software.
- Developed projects using Spring Boot and gained exposure to ReactJS for building scalable web applications.

Technical Skills

- **Languages:** Core Java, JDBC, Servlet, Hibernate, JSP, Spring Boot.
- **Core Concepts:** OOPs, Exception Handling, Collections Framework, Spring Frameworks (Spring core, Spring mvc, Spring Boot, Spring Data JPA), Spring Security JWT, Webservices, Rest Apis, DSA.
- **Web Technologies:** HTML, CSS, JavaScript.
- **Database:** SQL (Queries, Joins, Constraints), Oracle SQL, PostgreSQL.
- **Tools & IDEs:** Eclipse, VS Code, Android Studio, Postman, Maven, Git.
- **Soft Skills:** Problem Solving, Teamwork, Time Management, Adaptability, Communication.

Projects

Bank Management System (Spring Boot Project)

- **Developed** a Banking Management System using Spring Boot, Hibernate, JPA, and PostgreSQL following a layered architecture (Controller-Service-Repository).
 - **Implemented** core banking functionalities including account creation, deposit, withdrawal, balance inquiry, money transfer, account details retrieval, transaction history tracking, and account closure.
 - **Designed** and managed entity relationships between Customer, Account, and Transaction using Hibernate/JPA for efficient database persistence.
 - **Applied** DTOs, input validation using Jakarta Validation, and Global Exception Handling to ensure robust and secure API operations.
 - **Built** RESTful APIs and integrated PostgreSQL for data storage, transaction management, and account lifecycle management.
 - **Tech Stack:** Java 17, Spring Boot, Spring Data JPA, Hibernate, PostgreSQL, Maven, REST APIs, Jakarta Validation
- GitHub:** <https://github.com/NehaSharma2602/Bank-Management-System>

Leave Management System (2026)

- **Designed** and developed a full-stack Leave Management System with role-based access for Admin and Employees.
 - **Engineered** RESTful APIs using Spring Boot to handle leave requests, status updates, and user data management.
 - **Implemented** robust leave balance validation logic to prevent over-allocation and ensure data consistency.
 - **Built** an interactive and responsive frontend using HTML, CSS, and JavaScript with dynamic data rendering via Fetch API.
 - **Enabled** real-time workflow for leave approval and rejection, improving process efficiency and usability.
 - **Tech Stack:** Java, Spring Boot, REST API, HTML, CSS, JavaScript
- GitHub:** <https://github.com/NehaSharma2602/Leave-management-System>

Student Management System (2025)

- **Developed** a Java-based web application with Admin, Faculty, and Student modules.
 - **Implemented** features like attendance tracking, MCQ-based quiz system, and performance analytics.
 - **Used** Servlets, JSP, and Hibernate (JPA) following MVC architecture.
 - **Integrated** PostgreSQL for efficient data management and deployed on Tomcat.
 - **Tech Stack:** Java, Servlets, JSP, Hibernate, PostgreSQL, HTML, CSS
- GitHub:** <https://github.com/NehaSharma2602/Student-Management-System>

Education

Maharshi Dayanand University

Bachelor of Computer Applications (BCA)

Jun 2022 – Jun 2025

Rainbow English Senior Secondary School

Senior Secondary (12th)

Mar 2021 – Mar 2022
